# PRIME OFFICE SPACE AT THE CENTER OF AMSTERDAM ZUIDAS

Symphony Offices is a true landmark, prominently located at one of the most visible locations in the heart of the vibrant business district Amsterdam Zuidas. This high end office building offers excellent hospitality services and contributes to the high-quality appearance of its tenants.

The Dutch Architect Pi de Bruijn (De Architecten Cie) was responsible for the iconic architectural design. The mixture of various functions, which makes the Zuidas a metropolitan quarter, is realized at building level in Symphony.

The total building of Symphony Offices consists of approximately 35,000 sq m office space, divided over a ground floor and 27 upper floors. Symphony Offices offers a business environment of the highest possible level. The many windows guarantee a spectacular view of Amsterdam Zuidas, the city center and the surrounding area.

It is a multifunctional building, with a mixture of public, semi-public, and private functions. The unity of the two tower blocks (Symphony Residence and Symphony Offices) is emphasized in the elevations by means of the choice of material and pattern composition. The façade has brick cladding, which combines the residential with the commercial and has urban allure.
